

On 10.08.2016 AMIRANDA Ltd carried out the training for the employees of one of the biggest processor of sunflower seeds – Pology Oil Extraction Plant which was certified with our assistance on GMP+B2. The subject of the training was **«Purchasing of oil seeds under gate-keeper conditions»**.

For the training the personnel of AMIRANDA Ltd has worked out the special program based on the Ukrainian and European legislation. The importance of application of the legislation in the activity of the plant was specified.

Within the framework of the training such subjects as organization of the work with suppliers (Gate-keeper conditions) and products safety assurance while purchasing were discussed.

At the end of the training the written test was hold. Each participant who had passed the test has received the personal certificate.
